Better Textbooks. Lower Prices.

Contents

Module 1: The Basics of Revit Structure 1-1

Section 1: Introduction to Revit Structure 1-2
What Is Revit Structure? 1-3
Revit Structure Projects 1-4
The Revit Structure Interface 1-7
Self Check: Introduction to Revit Structure 1-30
Section 2: Setting Up Levels and Working with Views 1-31
Creating and Using Levels 1-32
Creating Elevations 1-37
Creating Sections 1-47
Creating Callouts 1-51
Self Check: Setting up Levels and Working with Views 1-59

Module 2: Revit Structure Design Tools 2-1

Section 1: Modifying Objects 2-2
Object Selection 2-3
Filtering 2-5
Temporary Dimensions 2-6
Nudge 2-12
Pinning Objects 2-13
Self Check: Modifying Objects 2-14
Section 2: Modify Commands 2-15
Move and Copy 2-16
Rotate 2-18
Array 2-23
Mirror 2-28
Align 2-32
Split 2-35
Offset 2-37
Trim 2-39
Self Check: Modify Commands 2-62

Module 3: Starting a Structural Project 3-1

Section 1: Creating an Architectural Overlay 3-2
Importing CAD Files as an Underlay 3-3
Exporting to Other Formats 3-11
Linking Revit Architecture 3-15
Self Check: Creating an Architectural Overlay 3-38

Section 2: Starting a Structural Model 3-40
Placing GridLines 3-41
Placing Structural Columns 3-49
Placing Masonry Bearing Walls 3-55
Placing Masonry Shear Walls 3-61
Self Check: Starting a Structural Model 3-68
Section 3: Adding Foundations 3-69
Strip Footings 3-70
Step Footings 3-81
Piers and Pilasters 3-85
Spread Footings 3-88
Structural Slabs 3-91
Self Check: Adding Foundations 3-112
Section 4: Reinforcing Foundations 3-113
Area Reinforcment 3-114
Path Reinforcement 3-124
Pier Reinforcement 3-128
Self Check: Reinforcing the Foundation 3-144

Module 4: Framing Systems 4-1

Section 1: Beams and Framing Systems 4-2
Adding Beams 4-3
Labeling Framing 4-26
Self Check: Beams and Framing Systems 4-37
Section 2: Brace Frames 4-38
Framing Elevations 4-39
Cross Bracing 4-46
Self Check: Brace Frames 4-53
Section 3: Floors 4-54
Creating Floor Systems 4-55
Modeling Pour Stop Conditions 4-60
Self Check: Floors 4-69

Module 5: Elevator Shafts, Stairs, and Ramps 5-1

Section 1: Shafts and Floor Openings 5-2
Creating Shaft Walls 5-3
Creating Shaft Openings 5-5
Self Check: Shafts and Floor Openings 5-17
Section 2: Stairs and Ramps 5-18
Creating Stairs and Ramps 5-19
Self Check: Stairs and Ramps 5-26

© 2009 - Do not duplicate

Module 6: Annotation, Detailing, and Scheduling 6-1

Section 1: Annotation 6-2
Working with Text 6-3
Dimensioning 6-9
Self Check: Annotation 6-24
Section 2: Detailing 6-25
Creating Details 6-26
Beam Coping 6-39
Label Building Materials 6-41
Self Check: Detailing 6-51
Section 3: Scheduling 6-52
Column Schedules 6-53
Footing/Pier Schedules 6-60
Legend Views 6-66
Self Check: Scheduling 6-73

Module 7: Creating Sheets and Printing 7-1

Section 1: Sheets and Printing 7-2
Creating Sheets 7-3
Self Check: Creating Sheets 7-19
